apply

HIGH-PERFORMANCE NEUTRAL SILICONE FOR ENVIRONMENTS WHERE HYGIENE IS ESSENTIAL

Parasilico AX Cleanroom T is a high-quality, neutral alkoxy curing one-component silicone for the durable sealing of joints in cleanrooms and other areas with strict hygiene requirements.

The fast skin formation helps reduce the risk of contamination of the sealant during curing.

TECHNICAL HIGHLIGHTS

Skin formation:	± 10 min.
Max. movement:	25%
Temperature resistance:	-50°C to +150°C
